

AROMA ZONE

EXPERT NATUREL EN SOINS & BEAUTÉ

JANUARY 2019 EDITION

The family adventure Aroma-Zone was born in 2000, inspired by *our admiration of the plants' power* and all of the treasures nature can give us.

True pioneer, Aroma-Zone was one of the first aromatherapy's information website and an essential oils online seller since 1999. Years later the idea of a crazy bet germinated in our Provençal premises : to come up with all that you need to *manufacture your own healthy, efficient and 100% natural cosmetics* ! And you are a growing number to subscribe to this concept.

Since the beginning, we are willing to propose *the best quality at a better price*, establishing lasting close ties with a network of devoted producers, in France and all over the world. Today, thanks to your *trust*, Aroma-Zone's adventure keeps on glowing every day and keeps on making available *the most beautiful natural extracts* for all, in a respectful approach of human beings and the planet.

Thanks!

Valérie, Anne & Pierre Vausselin, founders

3. We are working hand in hand with producers from all over the world. We are remunerating them at a fair price, we nurture sustainable and fair trade, and support traditional production chains.

4. We are committed to the animals protection organization One Voice. No product is tested on animals et no animal product or sub-product is used in the making of our products (except products from beehives, mare's milk, donkey's milk and silk proteins). We always check the animals' living conditions and ensure that the method of obtaining the product does not endanger the animals' welfare.

5. We are favouring ingredients from ecological agriculture and certified organic to preserve soils, air and water quality as much as the producers' health. Our ingredients are naturals and biodegradables.
